WORK EXPERIENCE

REAL ESTATE ANALYTICS INTERN

Los Angeles, CA

Pacific Horizon LLC May 2025 - Current

- Built and deployed an internal web application used firm-wide to automate financial modeling across a ~\$40M, 20-property portfolio, reducing modeling time up to 85%
- Engineered the tool to accept raw financial statements and cash flow inputs, outputting ranked property performance reports with automated identification of underperformers and itemized expense diagnostics
- Designed and maintain a dynamic financial analysis spreadsheet tracking 11 KPIs across the full portfolio to assess property profitability and investment potential
- Conducted year-over-year analysis using rent rolls, income statements, and balance sheets to surface actionable insights for asset management decisions

FOUNDER AND OPERATOR - DIGITAL MEDIA BRAND

Los Angeles, CA

Self-Directed Digital Media Brand

Aug 2025 - Current

- Founded and currently operate a multi-platform digital media brand, building scalable content systems and growth strategies across TikTok, YouTube, and Instagram
- Scaled the brand from 0 to 473,000+ followers and 271M+ cumulative views in 8 months, using performance data to drive sustained audience growth and engagement
- Secured and negotiated paid partnership deals with global major labels and media companies including Motown Records, Atlantic Records, 88Rising, and CUBE Entertainment
- Managed full business operations independently: content production, P&L, analytics reporting, and partner relationship management across domestic and global markets

BUSINESS ANALYST AND OPERATIONS INTERN

Los Angeles, CA

Rose City Works

May 2024 - Aug 2024

- Informed \$2M+ in sales decisions through historical trend analysis across Shopify storefronts for artist and music industry clients, identifying optimization opportunities
- Analyzed inventory reports across client stores to identify top-performing and underperforming SKUs, streamlining product offerings for merch and album release campaigns
- Developed new product concepts tailored to specific artist brands and target audiences, expanding client store portfolios across music and entertainment verticals

MARKETING AND PUBLIC RELATIONS MANAGER

Los Angeles, CA

The Emily Shane Foundation

Sep 2023 - May 2025

- Drove a 17% increase in audience reach through email campaign targeting hundreds of subscribers, earning the foundation a 2024 California Nonprofit of the Year award
- Scaled Mentor/Tutor program through establishing partnerships with 13 nonprofits across LA, increasing the foundation's capacity to serve hundreds of students annually
- Optimized and managed content on various social media platforms, resulting in a 12% increase in overall views and strengthening community engagement

RETAIL SALES ASSOCIATE

Irvine, CA

UNIQLO

May 2023 - Aug 2023

- Delivered customer support in a fast-paced retail environment, assisting shoppers with product selection, resolving inquiries, and managing multiple transactions simultaneously while maintaining a smooth and efficient checkout experience

PROJECTS

ANALYTICS ENGINEER

Los Angeles, CA

Canon U.S.A. Competitive Intelligence Pipeline

Jan 2026 - May 2026

- Built an end-to-end ELT pipeline ingesting stock price data for 5 imaging companies (Canon, Sony, Nikon, HP, Xerox) via Alpha Vantage API and a custom Canon USA Newsroom web scraper, loading into Snowflake and transforming with dbt layered staging and mart models
- Orchestrated fully automated daily pipeline runs using GitHub Actions scheduled workflows, eliminating manual execution and ensuring continuously fresh data
- Designed a star schema data model and deployed an interactive competitive intelligence dashboard to Streamlit Community Cloud, surfacing pricing and revenue trend analysis
- Engineered a RAG-powered knowledge base chatbot enabling natural language queries against synthesized Canon IR and news documents

PRODUCT DEVELOPER

Los Angeles, CA

Creator Matchmaking App

Mar 2025 - Current

- Designed and built a full-stack mobile MVP connecting creators through swipe-based matching, enabling discovery and collaboration opportunities
- Defined core product flows (discovery, profile evaluation, matching) and developed key features using React Native and Supabase, including content showcase, profile previews, and an inbound request system to drive engagement
- Iterated on product design and functionality based on user experience feedback, improving navigation, content presentation, and overall usability

PRODUCT ANALYST

Los Angeles, CA

AcePrep (Early-Stage AI-Powered EdTech Startup)

Sep 2025 - Mar 2025

- Led development of AI-powered student insights dashboards tracking 7+ performance metrics, translating user behavior into actionable insights that improved internal decision-making
- Improved AI-generated quiz relevance by testing and evaluating 50+ prompt variations, while partnering with engineering to integrate frontend dashboards with backend analytics APIs for scalable, real-time insights
- Analyzed TikTok and Instagram performance data across 50+ posts, identifying growth patterns and delivering data-driven recommendations to increase reach and engagement

LEADERSHIP EXPERIENCE

CHIEF OF OUTREACH

Los Angeles, CA

Information Systems Business Analytics Society

Nov 2023 - Jan 2025

- Implemented outreach initiatives to cultivate partnerships and collaborations with other student organizations, academic departments, and industry professionals
- Organized and executed speaker panels, alumni networking events, study hours, community events, and academic seminars leveraging outreach efforts, increasing overall attendance by 23%
- Spearheaded the management of the society's social media presence across diverse platforms, ensuring consistent and impactful messaging to enhance the society's visibility
